## KNIFE GATE VALVE FITTED WITH ACTUATOR

Repipe Can Fit Your New Knife Gate Valves With Actuators!

### FEATURES AND BENEFITS

- Remove the hand wheel and acme threaded spindle. Replace with plain shaft and bolt actuator directly to the flange that is part of the yoke of the valve. No special brackets required, flange bolt holes are universal standard drilling.

### SEAT REPLACEMENT

- Resilient EPDM or NBR. A pair of multigrips will allow the seat rubber to come straight out blade seals are simple by releasing the cross plates.

### GATE/ BLADE

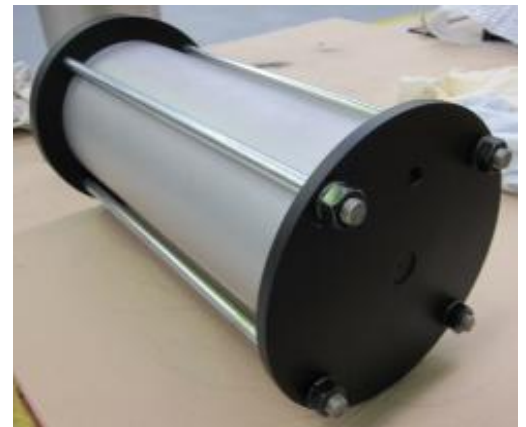

- The gate/ blade was 316 but we will revert to 304 with 304 stem: ductile iron body and cast iron yoke.

### BI DIRECTIONAL

- The valve can be installed any way as the seat rubber is recessed below the bore of the valve.
